International Scientific Centre of Fertilizers (CIEC)

## Towards the future of efficient fertilizer use in the Maghreb States

**Tunis, Tunisia**  
**October 14-17, 2025**

**Jointly organized by:**

International Scientific Centre of Fertilizers (CIEC), Shenyang, P.R. China

Institute of Applied Ecology (IAE), Chinese Academy of Sciences, Shenyang, P.R. China

University of Carthage, Tunis, Tunisia

## Scopes of the of the 51<sup>st</sup> CIEC International Fertilizer Conference

Food security and food safety are of prime interest on a global scale as are environmental aspects and soil protection issues. Agricultural production in the Maghreb States faces stress factors such as drought and salinity so that fertilizer practices counteracting these adverse conditions are of prime relevance. CIEC's ambition is to strengthen scientific exchange and co-operation to support this global challenge. With almost 90 years of global networking in the fertilizer research sector the 51<sup>st</sup> CIEC International Fertilizer Conference will be a unique venue to present cutting edge science to pursue this ambitious project not only in the Maghreb region.

The event is hosted by the University of Carthage (UCAR) in Tunis, Tunisia. The 51<sup>st</sup> CIEC International Fertilizer Conference is thematically dedicated to issues of plant nutrition, soil science, fertilizers, and fertilization. CIEC welcomes contributions in all areas of plant nutrition, fertilizers and fertilization, but appreciates especially contributions which focus on these categories on combination with stress factors typical for growth conditions in the Maghreb States and similar regions.

Details on deadlines for the submission of presentations (oral/poster), venue and participation fee will be provided with the first circular. Early inquiries report to [marwa.zouari@ucar.tn](mailto:marwa.zouari@ucar.tn) or [jieli@iae.ac.cn](mailto:jieli@iae.ac.cn).
