

88. City refuse compost as a source of micronutrients for plants
E. Iglesias-Jiménez
89. Agrochemical and technological characteristic features of sewage sludges applications in Russia
V. Kasatikov
90. Residual effects of sugar beet vinasse on plant growth
P. Martín-Olmedo, F. Cabrera, R. Lopez, J.M. Murillo
91. Agricultural use of city refuse compost. I. Effect on growth and chemical composition of plants
M.C. Mesquita Dos Santos, A.A.G. Réfega, R.M.B. Ganho
92. Accumulation and transformation of heavy metals (HM) within the 'soil plants' system in prolonged agrochemical trials
V.G. Mineev
93. Cadmium in inorganic fertilizers
J. Soler Soler, J. Soler Rovira
94. Lead uptake and distribution in legume species grown on lead-enriched soils
M.O. Torres, M.M.P.M. Neto, C. Marques Dos Santos, A. De Varennes
95. Effect of different fertilization systems on soil contamination with heavy metals in long-term trials
M. Ubavić, D. Bogdanović, M. Čuvardić

Session VI: CODE FOR AGRICULTURAL PRACTICES
Chairman: J. Soler Soler, Ministry of Agriculture, Fisheries and Food,
Madrid, Spain

96. EC policy regarding pollution of agricultural origin: the Nitrates Directive
P. Campbell
97. Putting the concept of environmentally balanced fertilizer recommendations into practice on the farm
I. Steen
98. Code of best agricultural practices
J.C. Ignazi
99. Code of Good Agricultural Practice and water pollution
J. Soler Rovira, J. Soler Soler, P. Soler Rovira, A. Polo Sánchez
