

61. Nitrogen losses by denitrification and leaching in grassland: the effect of cow slurry application  
J.M. Estavillo, M. Rodriguez, C. Gonzalez-Murua
62. Considerations on main factors which take part in nitrate contamination of ground water in Spain with relationship to other EU countries  
S. Ruano Criado
63. Phosphate enrichment in the sandy loam soils of West-Flanders, Belgium  
J. De Smet, G. Hofman, J. Vanderdeelen, M. Van Meirvenne, L. Baert
64. Nitrogen and phosphorus losses from soils treated with suspension fertilizers by effect of water draining  
C. Benítez, E. Bellido, M.M. Dobao, M. Tejada, J.L. Ruiz, J.L. González
65. Preliminary study of the effect of suspended particulate matter in the atmosphere on solar radiation in Salamanca (Spain)  
M.R. Fidalgo Martínez, A.M. García Gonzalez, A. Blanco De Pablos
66. Dynamics of nutrient transport in a small river of an agricultural water cathment in Northern Germany  
M. Kücke, K. Hasenpusch
67. Nitrogen leaching in a maize field trial of Lower Mondego Valley (Coimbra)-lysimeters studies  
M.I.F. Magalhaes-Martins

Session Vb: FERTILIZER IMPACT ON ENVIRONMENT-SOIL, CROPS  
Chairman: Ministry of Agriculture and Food, Moscow, Russia

68. Aluminium phytotoxicity: a challenge for plant scientists  
J. Barceló, Ch. Poschenrieder, M.D. Vázquez, B. Gunsé
69. Towards zero accumulation of heavy metals in soils: an imperative or a fad?  
E. Witter
70. Phytotoxicity of heavy metals  
W.H.O. Ernst
71. Heavy metal transfer in the food chain to humans  
H.-J. Hapke
72. Dilution effect of plant biomass on plant cadmium concentration as induced by application of phosphate fertilizers  
S.H. Chien, R.G. Menon
73. Thallium concentration in soils and crops and critical values with respect to food chain  
Ch. Makridis, A. Amberger
