

Ammonia volatilization during composting of straw and slurry S. T. JAKOBSEN, Denmark	283
Development of a vermicomposting system J. S. PRICE, United Kingdom	293
Possibilities for reducing the heavy metal contents of municipal wastes W. BIDLINGMAIER, Fed. Rep. of Germany	301
Chemical and microbial changes during the fermentation of liquid cattle manure treated with Agriben and its ingredients T. DEWES, Fed. Rep. of Germany	323
Availability of phosphorus in phosphate-enriched pelleted and granulated organic manures A. SHAVIV and J. HAGIN, Israel	331
Conclusions Final report of the COORDINATOR	339

WORKING GROUP 3

AGRICULTURAL USE OF NONRURAL WASTES — BENEFITS AND LIMITATIONS

Coordinator: L. VERMES

Introductory considerations L. VERMES, Hungary	343
A concept for sewage sludge land disposal in Poland J. S. CEBULA, Poland	355
System for regulation of waste-water and sewage sludge deposition on agricultural land in Hungary E. MOLNÁR, A. PUSZTAI and I. BUZÁS, Hungary	365
Case study on utilization possibilities of some non-urban waste in agriculture A. PUSZTAI, E. MOLNÁR, B. GESZTESI and I. QUEFF, Hungary	373
Evaluation of sewage sludge from a treatment plant as a fertilizer I. WALTER and M. BIGERIEGO, Spain	379
Relations between elements in Walloon sewage sludges L. BARIDEAU and E. DELCARTE, Belgium	383
Nitrogen efficiency of Wallonian sewage sludges L. BARIDEAU, Belgium	387
Crop response to sewage sludges and mineral fertilizer as nitrogen sources E. POMARES, E. TARAZONA and J. ROCA, Spain	393
Use of sewage sludge from tertiary treatment as phosphate fertilizer E. BARAN, Fed. Rep. of Germany	403
Fertilizing effect of sewage sludge on lettuce and rye grass J. QUELIHAS dos SANTOS and J. CARRASCO de BRITO, Portugal	411
Secondarily treated urban effluent as a source of N for trickle-irrigated cotton, sunflower and sudax I. PAPADOPOULOS and Y. STYLIANOU, Cyprus	415
Uptake of heavy metals by plants from urban refuse compost M. F. GUNS, Belgium	421
