WORKING GROUP 2

UPGRADING OF WASTES BY SEPARATION, COMPOSTING AND ADDITIVES

Coordinator: J. M. BESSON

Introductory considerations J.-M. BESSON, Switzerland	195
The storage of liquid animal waste J.-G. KRENTLER and W. HILLENDALH, Fed. Rep. of Germany	203
Treatment and handling of liquid manure W. BAADER and R. KRAUSE, Fed. Rep. of Germany	213
Solid-liquid separation of animal slurries S. PICCININI and L. CORTELLINI, Italy	219
The performance of a decanting centrifuge with piggery slurry and how its running costs can be offset R. W. SNEATH, United Kingdom	231
Sludge thickening and dewatering in the Gruppenklärwerk I of the Niersverband K. LINSSEN and E. ZINGLER, Fed. Rep. of Germany	241
Mechanical processing of organic matter H. G. CLAUS, Fed. Rep. of Germany	253
Processing of organic industrial wastes into bark-keratine-urea granulates T. WOLSKI and J. GLINSKI, Poland	263
Composting of liquid manure and straw E. SCHUCHARDT, Fed. Rep. of Germany	271
