Scientific and practical principles of increasing the efficiency of mineral fertilizer application
N. V. LISOVOY 265

Phosphorus and potassium fixation characteristics of Greek soils
A. D. SIMONIS 267

A condition for selecting a soil phosphorus test for a range of different soils
N. NIKOLOV 274

Comparison of different methods of extraction of P from Swedisch soils
S. STAHLBERG 279

Phosphate sorption parameters as a measure to determine precise P-fertilizer requirement
D. LOPEZ-HERNANDEZ and I. CORONEL 283

Determination of plant available phosphorus and potassium of the soil in a soil extract by a new acetate-lactate solvent
P. IVANOV 287

Estimation of the available P-content of soil on the basis of EUF-analysis
D. GYÓRI and B. FEHÉR 291

Experiences of experimental application of electro-ultrafiltration in soil testing in large-scale sugarbeet production
Z. KLEIN, É. ELEK, Z. KLEIN and B. PATÓCS 296

Study of three laboratory methods for the determination of available soil phosphorus and their relation to P absorption by rye-grass
B. ELEIZALDE 299

New instrumental measuring in the determination of the AL- and EDTA-extractions of soil
SZ. BÁLINT and O. BOLDIS 303

Integrated systems of plant nutrition diagnosis
J. BAIER 307

Response of sugarbeet to NPK fertilization and other factors of productivity in the Northwest Region of Uruguay
A. RABUFFETTI and D. LABUONORA 311

Relationships between the contents of organic matter, AL-extractable P_2O_5 and K_2O of soils and the nutrient content of winter wheat at tillering
L. BURIÁN and I. KISS 317

Optimizing the mineral nutrition of maize for silage and grain production
P. ANDONOVA, M. VLAHOVA, V. VALEV and T. KUDREV 319

Effect of long-term N and P fertilization on the available nitrogen and phosphorus content of the soil and on the yield of winter wheat /Triticum aestivum/
J. VÖRÖSBARANYI and I. KERÉKGYÁRTÓ 323

The rating of soils and farming conditions as a basis for planning mineral fertilizer need
M. BENEVSKI 326

Experience of soil analyses and utilization of the results in the counties of Bács, Fejér and Zala
B. BALOGH, I. POLLÁK, L. TAKÁCS, O. PÁLMAI, F. TIHANYI and B. HECKENAST 329
