

The influence of nitrogen fertilization on the transformation of soil organic matter W. WISNIEWSKI, S. S. GONET and B. MURAWSKA	238
The effect of mineral fertilizers on soil microorganisms B. HELMECZI	241
Effect of various N-fertilizers on the microbiological transformation of organic matter B. TÓTH	247
Relationship between the transformation of $^{15}\text{NH}_4$ $^{15}\text{NO}_3$ and soil respiration in the presence of N free organic matter J. SZEGI, I. SZEBENI and F. GULYÁS	251
The effect of manuring on the mobility and accumulation of soil nitrogen by N fertiliza- tion in long-term experiments L. HARGITAI, L. K. SEVCOVA, H. GÖRLITZ and W. MYSKOW	257
Role of N of organic manure in sustaining rice production in the southern part of China WEN QI XIAN and SHI SHU-LIAN	258
The effect of gypsum on nitrogen plant nutrition and on the efficiency of NH_4 -fertilizers under different soil conditions M. N. KULESHOV	261
The influence of the cultivar and PK supply on the yield increasing effect of N fertilizer in winter wheat I. HARMATI and D. SZEMES	263
The variety specific N fertilization of winter wheat I. HARMATI	266
Trials aiming at improved utilization of N fertilizers in rice production S. TÓTH	269
The study of nutritive element levels in winter rape in fertilization experiments T. NÉMETH and J. KARAMÁN	273
The effect of various N fertilizers on winter wheat / <i>Triticum aestivum</i> L. / yield and on N leaching J. BALÁZS	275
Effect of the rate and form of nitrogen fertilizer on the uptake of nitrogen by tomato plants L. RAIKOVA and V. RANKOV	279
Studies on oxamide as a new nitrogen fertilizer S. SAKAI, Y. TAKATA, R. NAKAGAWA and Y. YAMADA	283
Effect of different nitrogen fertilizers on a calcareous sandy soil F. GÁTI and B. LÁSZTITY	291
The after-effect of nitrogen applied in crop rotation M. FOTYMA	294
Energetic aspects of nitrogen fertilization of corn / <i>Zea mays</i> L. / I. DEBRECZENI	297
Determination of fertilizer nitrogen balance in greenhouse tomato growing using ^{15}N D. VLADEVA	299
Effect of intensive nitrogen fertilization on the fertility of a greenhouse soil L. GEZENCHOVA	302
