

- Y. Dombovari Hungary — Influence of different doses of nitrogen and phosphorous fertilizers on uptaking of nitrogen by soyabean

3.00 p.m.—6.00 p.m. — EVENING SESSION

Reports

- D. A. Filimonov USSR Transformation in soil and utilization by plants ¹⁵N labelled nitrogen fertilizers
- I. A. Lavrova
E. V. Rudelev
- P. F. Chabaliier Ivory Coast — ¹⁵N-fertilizer utilization in a two-year rotation (rice-maize/cotton) in Central Ivory Coast
- J. Pichot
- H. Faust DDR — Methods of automatized ¹⁵N analysis for nitrogen metabolism studies
- Y. M. Loginov USSR — Spectral isotope technique for ¹⁵N analysis in agrochemical researches
- Y. V. Frolov
O. B. Kuznetsova
G. K. Dudich

4.30 p.m.—4.45 p.m. Recess

Discussion

June 24, Thursday (Session in section VIII, continued)

10.00—13.00 MORNING SESSION

Reports

- K. F. Gladkova USSR — Usage of ³²P for determination of available and soluble reserve phosphates in USSR soils
- L. Gachon France — Evaluation relative efficiency of different P-fertilizers on the french And's soils
- R. Kastori Yugoslavia — The effect of some ecological factors on ³²P uptake by leaves
