

- | | | |
|-----------------------------|---------|--|
| T. Martonffy | Hungary | -- Influence of nitrogen fertilizer on yield and quality of lucerne growing on different soils |
| G. Schilling
S. Trobisch | DDR | -- Regulation of nitrate reduction in grass plants |

3.00 p.m.—6.00 p.m. EVENING SESSION

Reports

- | | | |
|---|------------|--|
| Dj. Jelenic
R. Lovic
R. Dzamic | Yugoslavia | - Effect of mineral fertilizers on yield and quality of some species of grapes |
| G. Raciti
A. Scuderi | Italy | -- Effects of calcareous amendments on the quality of oranges in volcanic soils |
| M. Milosavljevic
A. Nakalamic
R. Chorovic | Yugoslavia | - Correlation between NPK level in soil and affection of grape by engenic decay on vineyards |
| M. Ulicevic
V. Chetkovic
L. Peiovic | Yugoslavia | — Influence of mineral fertilizers on growth and yield of grape and its quality |

4.30 p.m.—4.45 p.m. Recess

Short lectures

- | | | |
|--------------------------------------|----------|--|
| P. Weselowski | Poland | -- Effect of fertilizers on chemical composition of yield and mesofauna of peat meadow |
| I. Kuczynska
B. Sapek | Poland | -- Effect of trace elements interaction on the grassland by high NPK levels |
| H. Panak
T. Wojnowska
G. Novak | Poland | --- Influence of differentiated mineral fertilizers on ratio of cations in orchardgrass and in plants of pasture |
| L. K. Mamarova | Bulgaria | --- Effect of mineral fertilizer on yield, lucerne's quality and nutrient balance in soil |
