

J. Latkovic	Hungary	— Effect of N-fertilizers on yield and soil fertility
W. Kohl	BRD	— New results about the manufacture and storage of suspension fertilizers of entirely soluble nutrients

3.00 p.m.—6.00 p.m. EVENING SESSION

Reports

W. Matzel	DDR	— Transformation of N-fertilizers in soil and their uptake by plants
I. Apłtwer	Czechoslovakia	
N. Borisova	USSR	
D. Dinchev	Bulgaria	
D. Korenkov	USSR	
J. Latkovic	Hungary	
G. Lippold	DDR	
V. M. Paneque	Cuba	— Study of liming and fresh filler press mud effects on sugar cane (<i>Saccharum officinarum</i> L.) yields in the soils of «Santa Coloma» valley
V. Moreno		
M. Petrovic	Yugoslavia	— The influence of liming, manure and mineral fertilizers on barley yield
Dj. Jelenic		
M. Jakovljevic		
G. Sandu	Roumania	— Amelioration of alkaline soils in Roumania
V. Blenaru		
P. Spina	Italy	— The theory and practice of effective fertilizer application for citrus

4.30 p.m.—4.45 p.m. Recess

Short lectures

Sh. Tol	Hungary	— The effect of N-fertilizers on rice
V. N. Prokoshev	USSR	— Nitrogen fertilizers and their role in increasing of yield, protein content and N-balance in podzol soil
S. I. Popova		
P. Erdei	Hungary	— The interrelation of chemical fertilization and cultivation factors for winter wheat varieties
R. György		
I. Harmati
