

# The Founders of CIEC

Dr. Ernest FEISST

Minister a.D. of the Swiss Government

First President  
of the "Centre International des En-  
grais Chimiques ( C.I.E.C.)

His excellent management of CIEC from the beginning and the building of new bridges after World War II were encouraging contributions in the fight against hunger in the world. His splendid multi-lingual speeches at CIEC congresses and other international conferences have formed the face of CIEC in an impressive way.

Dr. Francesco ANGELINI

Prof. of Plant Production, long standing Director of the "Istituto Superior de Agricultura di Portici, Universita di Napoli.

First Secretary General  
of the "Centre International des En-  
grais Chimiques".

His outstanding services in the dissemination of scientific findings in the field of Fertilization as well as his noteworthy contributions to the organization of numerous meetings and congresses dealing with Plant Nutrition and Agricultural Chemistry in an international scale were honoured by his election as Vice-President of CIEC on the occasion of the Statuary General Assembly in Göttingen (Germany) in October 1976.
